

# ASK GOD!

This will appear as an OpeningAnimation component that moves vertically from the upper and lower margins, colliding in an "!". When the entire Gif is rendered, it will rotate 90 left, the big part of the "!" will line up with where the Search field/button appears on the page, and the entire Gif will dissolve. The cloud background will continue to on the X-axis in a loop, through all screens..

Credits - these are subtle, but sticky

Choose a god

Choose a goddess

Option 1 | Option 2

Option 1 | Option 2

Options for deities are randomly generated from a stored string of Greek, Roman, Egyptian, and Asian deities (only the well known ones)

Ask God

Search Input Field

Results field

(size is responsive and proportional to length of response)

And Ai shall say unto you

Talk to "God"

(and please fill in this form as you would

have others fill in yours)
